

| | | | | | |
|--------|--|------------------|---|---|---|
| Meet | play football fantasy from the phone without paying for subscription | Fantasy Football | join the league with friends | the layout is a not friendly | if something like more helpful instructions that would help to get started with the app |
| Charmi | some app that would let them help to get connected with the friends | Instagram | can connect with the friends which she lost contact | how it is connected to other apps and listens to every thing we talk | if there is a way or an option to stop listening the things |
| Parth | some way to transfer money to anyone | Venmo | you can transfer money to friends and that too within seconds | fee is charged is you want to transfer the money to the bank in seconds | you can transfer the money but if you want free it takes 3-5 business days |
| Arth | trading cryptos | Coinbase | you can trade crypto within the app | How they charge fee for every time they transfer the crypto and can only trade which are available in the app | if there could be a better gui interface |
